

YUVRAJ BISHT

B.Tech. Computer Science & Engineering

+91-8799110247 | yuvrajbisht41@gmail.com | Vadodara, Gujarat, India | github.com/yuvraj249 | linkedin.com/in/yuvraj-bisht

PROFESSIONAL SUMMARY

Software Developer (B.Tech CSE) with hands-on experience in QA/test automation and full-stack development. Skilled in building end-to-end test suites with Cypress and Playwright, developing backend APIs in Golang and Python, and shipping React-based frontends. Strong foundation in data analysis, SQL, and applied AI/RAG pipelines.

TECHNICAL SKILLS

Testing & QA: Playwright, Cypress, End-to-End Testing, Test Case Design, Accessibility (a11y) Testing, API Testing (Postman)

Languages & Databases: Golang, Python, C++, SQL, MySQL

Frameworks & Libraries: Gin (Go), FastAPI, ReactJS, jQuery, LangChain

AI & ML: OpenAI API (GPT-4o-mini, text-embedding-3-small), ChromaDB, RAG Pipelines, Prompt Engineering

DevOps & Tools: Git, Power BI

WORK EXPERIENCE

Engineering Intern — EXXAT Group

May 2026 – Aug 2026

- Wrote and executed test cases using Playwright for QA/testing of web applications.
- Identified and reported functional and accessibility-related issues across application components.
- Contributed to UI development work focused on adding accessibility features to components.

Software Engineer Trainee - Infilon Technologies

Sep 2025 - Mar 2026

- Developed and maintained end-to-end test automation with Cypress for ERP modules, implementing API-based test coverage across core workflows.
- Debugged test cases involving async requests and dynamic DOM rendering; standardized data-cy selectors across the codebase for more reliable automation.
- Performed regression testing, API validation (CRUD), and workflow testing; contributed React frontend enhancements alongside QA work.
- Built a full-stack Product Catalogue application with a Golang backend API and JavaScript frontend.

Data Analyst — Tactree LLP (KPO / Analytics)

Nov 2024 – Mar 2025

- Analyzed complex datasets and built Power BI / Excel dashboards to track key performance indicators.
- Cleaned and transformed large datasets using SQL and Python; automated routine data tasks to improve reporting speed and accuracy.

PROJECTS

CodeMind — AI Codebase Assistant | Python, FastAPI, OpenAI, LangChain, ChromaDB, React 18

- Built a RAG-based AI tool that answers questions on uploaded GitHub/ZIP codebases, engineering chunking and vector retrieval pipelines.
- Architected a FastAPI backend (Ingestion, RAG, and Summary services) with a React 18 frontend and Mermaid-based architecture diagrams.

Product Catalogue & Inventory System | Go, Gin, MySQL, JWT, RBAC

- Built a full-stack inventory application with JWT authentication, role-based access control, and full CRUD for products, suppliers, and categories.

IoT-Based Home Automation System | IoT, ESP8266, MQTT, Python, C/C++ — published in IRJMETS, Mar 2025

- Built an IoT home automation system using MQTT/HTTP communication with web and mobile control; served as backend/firmware developer.

EDUCATION

B.Tech. Computer Science & Engineering — Parul University (PIET) 2021 – 2025 | CGPA: 8.26/10

Class 12 (CBSE), Green Valley High School — 2021, 88% | Class 10 (CBSE), D R Amin Memorial School — 2019, 94.6%

CERTIFICATIONS & LANGUAGES

Certifications: Data Analytics with Python (77/100) • SQL (Basic) • Basics of Python • Research Paper: IoT Home Automation, IRJMETS

Languages: English (Proficient) | Hindi (Native)
